TENDER SPECIFICATION

Soap dispenser with sensor for 800 ml liquid soap, pump suitable for hand disinfectant, stainless steel housing matt black, applications in brushed stainless steel (viewing window, decorative strips and pivot point), pivot point concealed with „STEEL-DOT®“ application, inner container and pump unit replaceable, filling from above directly in the dispenser itself or by removing the refill container for filling outside the dispenser, automatic triggering by infrared sensor, sensor distance adjustable, dosing quantity approx. 1.3 ml/stroke, with unit lock and fill level indicator, pump at lowest point so that possible germination of liquid soap can be avoided by regular, complete emptying, mains-independent, battery-operated with six 1.5 volt batteries (included), four-point fixing, including fixing material and key, for surface mounting

DIMENSIONS

H x W x D 259 x 121 x 102 mm
Weight 2,0 kg

AREAS OF APPLICATION

Can be used in semi-public areas with moderate visitor frequency and risk of vandalism: Offices, law firms, retail stores, employee restrooms, fitness studios, hotels, upscale restaurants, lounges, clubs, private homes, etc.

MOUNTING TIP

If possible, mount the soap dispenser directly above the washstand or a storage surface. This way, soap cream dripping from hands will not cause a slip hazard on the floor. When planning concealed dispensers, keep in mind that the dispenser must remain accessible for refilling. The refill container can be removed separately. **When installing, please ensure that the distance between the bottom edge of the dispenser and the washbasin is at least 25 cm!**
