TENDER TEXT

Soap and disinfectant dispenser for 1,200 ml liquid soap, disinfectant or 1,000 ml bottle to be used upside down, for hidden installation e.g. behind a mirror or in a cupboard so that only the operating lever is visible, made of stainless steel, included removable plastic container with stainless steel operating lever, pressure application, dosage volume approx. 1,5 ml/stroke, fill in the soap at the top directly into the dispenser or take out the container for refilling it outside the dispenser, plastic pump at the lowest point so that the possible contamination of the soap can be avoided by regular and complete emptying, four-point mounting, for hidden installation

DIMENSIONS

H x W x D (with operating lever)	335 x 94 x 138 mm
H x W x D (without operating lever)	299 x 94 x 110 mm
Weight	0,6 kg

APPLICATION AREAS

Universally usable, even in public, high traffic and vandalism prone areas: airports, stadiums, concert halls, restaurants, schools, universities, clubs, community buildings, shops, offices, theaters, cinemas, hotels, wellness, etc.

MOUNTING ADVICE

The dispenser should be fitted above a sink so that wet hands can drip. When installing, please keep adequate space above the dispenser to permit refilling. The container is removable. Required height: 120 cm, from floor to dispenser.

REMOVABLE PUMPS

It is possible to change this soap and disinfectant dispenser into a foam soap dispenser through simply changing the pump.

Pump for foam soaps, Art. 27-906

SOAPS AND DISINFECTANTS

You can find matching soaps and disinfectants in our current catalogue with the currently applicable prices or visit our website www.air-wolf.de

To ensure a proper exchange of the soap dispenser for hidden installation it should be a minimum distance of 10 mm between mirror and dispenser.

Filling from the top. The dispenser must remain freely accessible. A guiding rail (Art. 20-170) is also available for hidden installation, e.g. behind a mirror or in a cupboard.
