### TENDER SPECIFICATION

Dispenser for concealed installation, outlet on the right, suitable for standard 5 liter canisters of soap or disinfectant (not included), small containers also possible, dispenser housing made of stainless steel, filling primarily by changing the container, alternatively by filling the container, automatic triggering by infrared sensor, mains connection, four-point fixing, including fixing material

### DIMENSIONS

H x W x D (without pump)	340 x 330 x 170 mm
Weight	1,82 kg

### AREAS OF APPLICATION

Universally applicable, also in public, highly frequented and vandalism-prone areas: Airports, stadiums, event halls, gastronomy, schools, universities, discotheques, municipal buildings, hospitals, retail stores, law offices, offices, theaters, cinemas, hotels, wellness, etc.

### MOUNTING TIP

If possible, mount the soap dispenser directly above the washstand or a storage surface. This way, soap cream dripping from hands will not cause slippage on the floor. When planning concealed dispensers, keep in mind that the dispenser must remain accessible for refilling.
