AIR-WOLF

### TENDER TEXT

Soap and disinfectant dispenser for 1,200 ml liquid soap or disinfectant, matt black coated stainless steel housing, RAL 9005, brushed stainless steel push button, replaceable inner container with pump, filled from the top direct into the dispenser itself or by removing the refill container for filling outside the dispenser, push-button operation, dosage approx. 1.3 ml/stroke, with unit lock and fill display, rounded top to prevent waste from being deposited, pump made of plastic at the lowest point so that possible contamination of the liquid soap can be avoided by regular and complete emptying, four-point mounting, including mounting material and key, for wall mounting

### DIMENSIONS

H x W x D	289 x 102 x 124 mm
Weight	1.65 kg

### APPLICATION AREA

Designed for universal use, including in public areas that are heavily frequented and at risk of vandalism: airports, stadiums, eventhalls, restaurant and food service industry, universities, nightclubs, communal buildings, shops, chambers, offices, theatres, cinemas, hotels, spas, etc., not suitable for kindergartens and primary schools

### MOUNTING TIP

Install soap dispensers directly above the washbasin or shelf space if possible. This way liquid soap that drops from hands does not cause a slipping hazard on the floor.
