TENDER TEXT

Soap dispenser with sensor for 800 ml liquid soap, pump suitable for hand disinfectant, stainless steel white coated, RAL 9003, inner container and pump unit replaceable, filling from above directly in the dispenser itself or by removing the refill container for filling outside the dispenser, automatic triggering by infrared sensor, sensor distance adjustable, dosing quantity approx. 1.3 ml/stroke, with unit lock and fill level indicator, pump at lowest point so that possible contamination of liquid soap can be avoided by regular, complete emptying, mains-independent, battery-operated with six 1.5 volt batteries (included), four-point fixing, includes fixing material and key, for surface mounting

DIMENSIONS

H x W x D 264 x 117 x 103 mm
Weight 1.85 kg

APPLICATION AREAS

Designed for universal use, including in public areas that are heavily frequented and at risk of vandalism: airports, stadiums, eventhalls, restaurant and food service industry, universities, nightclubs, communal buildings, shops, chambers, offices, theatres, cinemas, hotels, spas, etc.,

MOUNTING TIP

If possible, mount the soap dispensers directly above the sink or a storage surface. In this way, soap cream dripping from the hands cannot cause a risk of slipping on the floor.

When mounting, please ensure that the distance between the bottom edge of the dispenser and the washbasin is at least 25 cm!
